

**NON HAZARDOUS ACCORDING TO CRITERIA OF WORKSAFE AUSTRALIA**

## **MATERIAL SAFETY DATA SHEET**

### **IDENTIFICATION**

**Product Name:** Whiteboard Cleaner No 2  
**Other Names:** None  
**Code:** None  
**Un No:** None Allocated  
**Dangerous Goods Class:** None Allocated  
**Subsidiary Risk:** None Allocated  
**Hazchem Code:** None Allocated  
**Poison Schedule:** None Allocated  
**Use:** Whiteboard Cleaner

### **PHYSICAL PROPERTIES**

**Appearance:** Colourless liquid with lemon menthol odour  
**Boiling Point:** 100C  
**Melting Point:** <0C  
**Vapour Pressure:** Not Available  
**Specific Gravity:** 0.99  
**Flash Point:** Not Available  
**Flammability:** UEL Not Available  
**Limits %:** LEN Not Available  
**Solubility in water:** Soluble  
**% Volatile by Volume:** Not Available  
**Other Properties:**

### **INGREDIENTS**

<b>Chemical Entity</b>	<b>CAS No.</b>	<b>Proportion %(w/w)</b>
<b>Iso Propanol</b>	<b>67 – 63 – 0</b>	<b>Low</b>
<b>Ingredients determined to be non – hazardous V High VHigh&gt;60%, High30 – 60%, Med10 – 30%, Low 1 – 10%, V Low &lt;1%</b>		

## HEALTH HAZARD INFORMATION

### HEALTH EFFECTS – ACUTE

No adverse health effects are expected if the product is handled in accordance with this safety data sheet and the product label. Symptoms that may arise if the product is mishandled are:

<b>SWALLOWED</b>	Swallowing can result in gastro – intestinal irritation nausea vomiting and loss of consciousness.
<b>EYES</b>	Liquid, mist or vapour can cause eye irritation
<b>SKIN</b>	Contact may cause mild irritation. Repeated contact may lead to dermatitis
<b>INHALED</b>	Vapour can result in irritation of mucous membranes and respiratory tract. Inhalation of high concentration can produce central nervous system depression which leads to loss of coordination, impaired judgment and unconsciousness.

### HEALTH EFFECTS CHRONIC

Repeated or prolonged exposure to high concentrations can lead to kidney, liver and blood disorders

#### FIRST AID

<b>SWALLOWED</b>	Rinse out mouth and give plenty of water to drink. <b>DO NOT</b> induce vomiting seek medical assistance
<b>EYE</b>	Immediately irrigate with copious quantities of water for at least 15 minutes Eyelids to be held open. Seek medical attention
<b>SKIN</b>	Wash skin with plenty of soap and water. Remove contaminated clothing and wash before re – use. If irritation occurs seek medical advice.
<b>INHALED</b>	Remove victim from exposure avoid becoming a casualty. Remove Contaminated clothing and loosen remaining clothing Allow patient to assume most comfortable position and keep warm Keep at rest until fully recovered. If breathing is laboured and patient cyanotic (blue) ensure airways are clear and have qualified person give oxygen through a face mask. If breathing has stopped apply artificial respiration at once. Seek medical advice.

#### FIRST AID FACILITIES:

Treat symptomatically

#### ADVICE TO DOCTOR

Exposure Standards

#### PRECAUTIONS FOR USE

Recommended exposure standard of component iso propanol

Engineering controls

Ensure ventilation is adequate to maintain low air contaminated clothing s

Use with local exhaust ventilation or wear organic vapour respirator Vapour is heavier than air therefore prevent concentration in hollows or sumps **DO NOT** enter confined space where vapour may have collected  
Keep Containers closed when not in use

#### Flammability

Non Flammable Liquid

**SAFE HANDLING INFORMATION**

**Storage & Transport**

Not defined as dangerous goods – Australian code for transport of Dangerous Goods by road and rail. Store in a cool place out of direct sunlight. Store in a well ventilated area. Store away from oxidising agents and strong caustics. Keep containers closed at all times.

**Spills & Disposal**

Ensure Ventilation is adequate. Shut off all source of ignition. Wear protective equipment to prevent skin and eye contamination and inhalation of vapours. Contain using sand or soil prevent run off into drains and waterways. Use absorbent soil sand or other inert Material. Collect and seal in properly labelled drums for disposal if contamination of sewers or waterways has occurred advise the local emergency services. Refer to state land management authority.  
Normally suitable for incineration by approved agent.

**Fire explosion Hazard**

On decomposition forms oxides of carbon i.e. CO, CO<sub>2</sub> fire fighters to wear self contained breathing apparatuses if risk of exposure to vapour or products of combustion  
**EXTINGUISHING MEDIA:** Foam or dry agent (carbon dioxide dry chemical powder) water fog or fine water spray. Keep containers and surroundings cool with water spray
